

Agenda:

- 1> what is CSS?
- 2> How to use CSS?
- 3> CSS selectors
- 4> Exercises on CSS selectors
- 5> colors in CSS
- 6> Basic CSS Properties (text, fonts, Background)

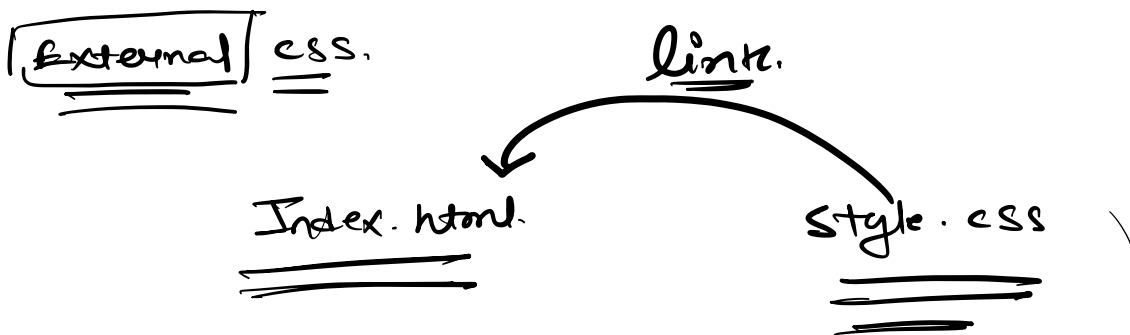

What is CSS?

Cascading Style sheets

1> Inline

2> Internal

3> External

2) Internal CSS.

When you use CSS inside the HTML file we use a style tag to add properties.

3) Inline CSS.

Inline > Internal > External

CSS Selectors.

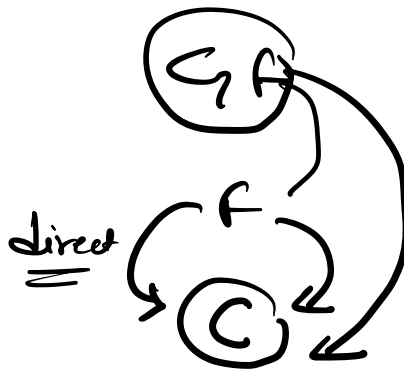

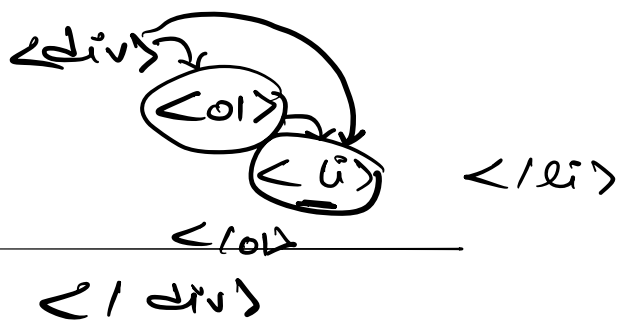

Element Selector

Class.

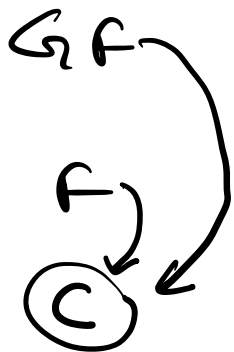

You can group different Elements in one Class and Assign similar properties to them.

Descendant skeletons.

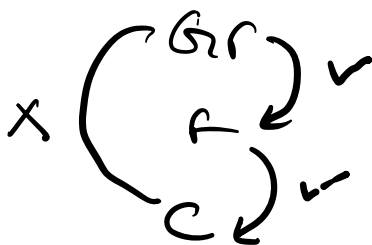

Nesting

Descendant

children

(Break til 10:40 PM.)

Element Selector

Class Selector

ID Selector

Children Selector
